

National Oral Health Programme (NOHP)

National Oral Health Programme (NOHP) is an initiative of the 12th Plan period launched in the year 2014-15 to strengthen the public health facilities of the country for an accessible, affordable & quality oral health care delivery. The objectives of NOHP are as under:

1. Improvement in the determinants of oral health e.g. healthy diet, oral hygiene improvement etc and to reduce disparity in oral health accessibility in rural & urban population.
2. Reduce morbidity from oral diseases by strengthening oral health services at Sub district/district hospital to start with.
3. Integrate oral health promotion and preventive services with general health care system and other sectors that influence oral health; namely various National Health Programs.
4. Promotion of Public Private Partnerships (PPP) for achieving public health goals

The program has two components as under:

NHM Component: support is provided to States to set up Dental Care Units at District Hospitals or below. Support is provided for the following components:

- Manpower support [Dentist, Dental Hygienist, Dental Assistant]
- Equipments including dental Chair
- Consumables for dental procedures

Tertiary Component:For central level activities such as:

- Designing IEC materials like Posters, TV, Radio Spots, Training Modules
- Organizing national, regional nodal officers training program to enhance the program management skills, review the status of the program
- Preparing State/District level Trainers by conducting national, regional workshops to train the paramedical health functionaries associated in health care delivery.

Achievements of National Oral Health Programme

The Centre for Dental Education and Research, AIIMS, New Delhi was identified as the National Centre of Excellence for Implementation of National Oral Health Program in FY 2014-15.

मुँह के स्वास्थ्य की करें सदा देखभाल
